Art Unit: 3738

The Status Letter received on February 14, 2005, is acknowledged. The examiner apologizes for the delay in the present Office action.

This application contains claims directed to the following patentably distinct species of the claimed invention:

General Haptic Design

Species A1: Figures 1A, 1B, 2A, and 2B;

Species A2: Figures 5A-5C;

Species A3: Figure 8;

Species A4: Figure 9;

Species A5: Figure 10;

Contact Deflection Mechanism

Species B1: Figures 3A and 3B;

Species B2: Figures 6A and 6B;

Species B3: Figure 7;

Species B4: Figure 11.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species *from each of the above two groupings (e.g., A1 and B1)* for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, *and a listing of all claims readable thereon, including any claims subsequently added.* An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 3738

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species (MPEP § 809.02(a)).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dave Willse whose telephone number is 571-272-4762. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott, can be reached on 571-272-4754.
